EDUCATION

Universal AI University

Bachelor of Technology in Computer Science Engineering (AI & ML)

Mumbai, Maharashtra, India

Aug. 2024 – Nov. 2028

Alard Public School

Higher Secondary Certificate (HSC) – First Division with Distinction

Pune, Maharashtra, India

2022 – 2024

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C/C++, SQL (Advanced queries, optimization, debugging)

AI/Machine Learning: Deep Learning (CNNs, Transfer Learning), Model Evaluation & Metrics (Accuracy, Precision, Recall, F1, AUC), Uncertainty Quantification, Reliability-Aware AI, Explainable AI (Grad-CAM), Production ML Systems

Medical AI & Safety: Histopathology Image Analysis (BreakHis), AI Safety & Hallucination Detection, Human-in-the-Loop Systems, Safety-Critical AI Design, Healthcare Compliance (NDHM/ABHA)

Frameworks & Libraries: PyTorch, TensorFlow, Scikit-learn, NumPy, Pandas, Matplotlib

Web & Backend: React.js, Node.js, Express.js, REST APIs, FastAPI

Databases & Cloud: PostgreSQL, Supabase, Firebase, AWS (EC2), GCP (Cloud Functions, BigQuery basics)

DevOps & Testing: Git/GitHub, Docker, CI/CD Pipelines, Unit Testing, Integration Testing, Code Review

Tools & Platforms: VS Code, GitHub Actions, Jupyter Notebook, Postman, Figma, Netlify, Render

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS

EXPERIENCE

Graphic Designer (Part-Time)

Sparge Chem Private Limited

Sept. 2022 – Present

Maharashtra, India

- Created 50+ digital marketing creatives including brochures and social media assets, boosting client engagement by 40%
- Contributed to supplier network system integrating HR, Accounting, and Project Cost Management with B2B workflows
- Leveraged design analytics to improve campaign performance by 30% and align visuals with business objectives

Creative Lead & Event Organizer

AI Odyssey 1.0, Universal AI University

Mar. 2025 – Oct. 2025

Karjat, Maharashtra, India

- Spearheaded branding and coordination for AI & ML hackathon with 200+ participants across 50+ teams
- Produced promotional materials improving visibility by 60%, received Certificate of Appreciation for leadership
- Orchestrated logistics and vendor coordination, delivering successful event exceeding stakeholder expectations

PROJECTS

MediScopic-BC (Medical AI) | Python, PyTorch, ResNet50, Grad-CAM, OpenCV

Research Project

- Engineered dual-stage deep learning framework for breast cancer histopathology classification using ResNet50 diagnostician and MLP auditor
- Pioneered introspection mechanism utilizing Entropy & Embedding Distance to detect silent failures, capturing 75% of model misdiagnoses
- Deployed Grad-CAM explainability framework generating real-time attention heatmaps enabling pathologists to verify model focus on malignant tissue
- Achieved 84.84% classification accuracy on BreakHis dataset through transfer learning and data augmentation
- Designed Circuit Breaker safety protocol decoupling prediction from trustworthiness, ensuring zero silent failures in diagnostic decisions

HospAgent (Agentic AI) | React, Node.js, Express, Supabase, Python, Recharts

Mumbai Hacks 2025

- Built comprehensive digital health record system for migrant workers aligned with UN SDGs featuring multi-role portals with Row-Level Security
- Incorporated AI-driven patient surge prediction model using Python, improving hospital capacity planning accuracy by 35%
- Established offline-first PWA architecture for low-connectivity regions with real-time synchronization and analytics dashboard
- Ensured NDHM/ABHA compliance for health data privacy standards and national interoperability framework

CodeMentor AI | React, Node.js, Express, Supabase, OpenAI API, Tailwind CSS, JWT

Personal Project

- Launched AI-powered coding assistant providing real-time code suggestions and mentorship through OpenAI GPT-4 API
- Configured secure JWT authentication with Supabase PostgreSQL and role-based access control for users, mentors, and admins
- Crafted responsive chat interface with optimized deployment achieving 99.5% uptime and sub-200ms latency

CERTIFICATIONS & ACHIEVEMENTS

AWS Cloud Certifications – Amazon Web Services cloud computing and infrastructure certification

Introduction to Node.js (LFW111) – Linux Foundation certification for Node.js fundamentals

Deloitte Data Analytics Job Simulation – Virtual experience program on Forage platform

Bring AI to Work Workshop – Google Workspace AI integration and productivity workshop

AI Odyssey 1.0 Creative Lead – Led university flagship hackathon, received Certificate of Appreciation

Mumbai Hacks 2025 Participant – Competed in national-level AI/ML hackathon with HospAgent project

Technical Volunteer – Active volunteer at university tech festivals and technical workshops
